TOOL FLEET MANAGEMENT

**We manage your tools.
So you can manage your business.**

Hilti Fleet Management

Tooling up for a project is a major investment and a massive undertaking. With Fleet Management solutions from Hilti, you can eliminate many of the headaches associated with managing the tools you need to complete a project.

We'll help you stay focused on your job with tracking, coverage and upgrades that keep your tools and team running at peak performance.

BENEFITS FOR FLEET CUSTOMERS

Better tools make for better projects. But acquiring all of the high-performance tools you need takes a major upfront investment and ongoing tracking and repairs can take their toll on your time and your budget.

CONTROLLED COSTS

- **All inclusive repairs** – no repair costs or repair quotations
- **Fixed monthly costs** – low monthly usage fee, predictable monthly costs
- **Theft coverage** – limits your financial exposure in the event of theft

PREDICTABLE PERFORMANCE

- **Loan tools** – complimentary loaner in the event of a repair, reducing downtime*
- **Tool upgrades** – trade up to the latest technology at the end of your term
- **Maximise performance** – minimise downtime with constant fleet of peak performing tools

EASIER TRACKING

- **Tool inventory and labelling** – track and assign tools online, avoid redundant purchases and customised labels, making tracking tools easier.

Fleet Management

ON!TRACK ASSET MANAGEMENT

With transparency comes efficiency.

Hilti Ontrack Services

They are some of the biggest jobsite efficiency killers: Missing assets. Broken tools. Assets that aren't where they need to be. These problems slow you down — and cost you money. Staying efficient while managing hundreds or thousands of assets across multiple jobsites is an entire job in itself. And it's another job that we want to make easier.

WITH YOU FROM START TO FINISH — AND BEYOND, WE'LL HELP YOU

When you're ready for simplified asset management, we're ready to help. We'll help you analyse, plan, and implement ON!Track for your asset inventory, and we'll be there for you whenever you need assistance with ongoing customer service and training.

Plan

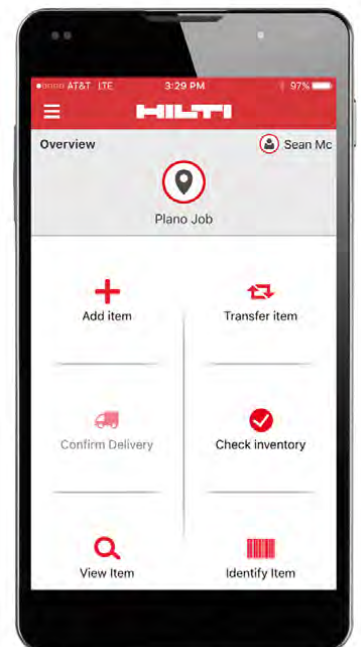

- Analyse your current process
- Perform a cost and benefit analysis
- Review requirements

Implement

- Customize your solution
- Tag and register your assets
- Conduct initial training

Maintain

- Stay productive with ongoing customer service
- Get the tools you need with a direct sales team
- Stay up to date with

HILTI ONLINE.

Order, manage your inventory and access technical data

www.hilti.co.za

Puts you in the Driver's Seat.

Hilti Online puts you in the driver's seat, its open 24 hours 7 days a week, 365 days a year. Drive at your own time at your own speed.

Lock down who can buy

You can decide which contact persons, in your organization, are authorized to purchase online.

Same pricing

Once you have logged in, the pricing that you would get from using any of our other Hilti sales channels such as our Account Managers, Call Centre, Hilti Centre will be the same for all the items.

View Sales History

Do you want to view what you have purchased from us? Under the Orders tab you can view a list of all your purchases as well as the overall invoicing status and deliver status.

Add your Purchase Order (PO) Number on Checkout

In the small box at the bottom of the check-out screen you can add your PO number. This will automatically be added to your invoice that gets emailed to you in a PDF attachment. Tick the box of the relevant one and then tick request an invoice copy and the PDF version will be emailed to you.

Your invoice gets emailed to you on Checkout (PDF)

On checkout you will receive an email with the PDF version of your invoice and if you included the PO number in the check-out screen it will also be on the invoice for you to print out and store.

Create your own favourite lists

Are you buying the same products over and over again? Make your life easier by setting up a favourites list so that within a few clicks your order has gone through.

Request a demo in 2 clicks

For every one of our tools, inserts or consumables you can click on the request a demo. If you are logged in all your information will already be populated in the form and with another click the request is sent through to a

sales person who will contact you to get the best date/time for the demonstration.

Book your tool in for Repairs

Under the tool management tab once you have logged in, you can search for your tool by its serial number and within a few clicks book it in for repair.

Report a Lost/Stolen Stool

Under the tool management tab once you have logged in, you can search for the tools serial number that has been lost or stolen and then once it comes up you can report it stolen/lost and we will place a flag on the tool so that if it comes in for a repair we can alert the authorities.

Manage your fleet account

If you are a fleet customer you can manage your fleet tools with us. You can add additional tools, customize the tools allocation to site and contact persons.

Multiple Product Comparisons

You can click on the compare box of the products you want to compare and when done, click on the link compare of any product and it will take you to a screen where you can view multiple products on the same screen.

Comprehensive product Information

We have all the application information, product technical information as well as videos available for you to watch. We also have the various technical documents available for download such as material safety data sheets and operation instructions etc. You can also see which accessories or inserts are relevant for that product in the case of tools. For consumables and inserts you can see what relevant tools will be required for that application.

Check Product Availability

You can type in the quantity that you require and click the check button and it will tell you if the quantity is available and if it is you can add it straight to your product basket.

EXPLANATION OF SYMBOLS

We build a better Future.

Hilti Lifetime Service: Hilti provides outstanding service for the entire life of the product – completely free of charge for the first year from date of purchase – covering repair or replacement of defective parts (even parts subject to wear and tear!). After that, Hilti continues to prove the quality of its products by setting a repair cost limit – for the entire life of the product.

Hilti Calibration Service – consistently reliable measuring results for all Hilti measuring tools.

Hilti power tools and Hilti accessories are developed together, tested together and perfectly matched to each other. You thus benefit from a level of system performance that amounts to much more than just the sum of its components.

Active Torque Control (ATC) offers maximum safety and unrestricted working comfort thanks to automatic cut-out in critical situations.

Hilti DRS dust removal systems make countless jobs virtually dustless and thus more productive.

Hilti Cordless Power Care (CPC). Extremely light in weight and perfectly balanced, Hilti Lithium CPC cordless tools give you the lasting power and mobility you need for all kinds of demanding jobs.

Hilti Smart Power – consistent performance under load.

Hilti Pulse Power – up to 1 million pulses per second for extremely fast and highly reliable measuring results, even under the most difficult conditions.

Active Vibration Reduction (AVR) reduces vibration by up to two thirds compared with conventional power tools

ENVIRONMENTAL RESPONSIBILITY

We are dedicated to reducing our environmental impact.

Environmental protection is an integral part of our culture and is manifest in our corporate purpose, “We passionately create enthusiastic customers and build a better future!” We take the environment and various aspects of health and safety into account during development, design, manufacturing, delivery, product use and disposal. We strive to ensure compliance with current and future environmental and safety legislation as well as global environmental standards by making constant improvements at Hilti’s plants and by working with our suppliers so that they, too, may adapt and support this culture. We strongly believe that only if we shoulder our responsibility to the environment can we enjoy sustainable growth.

MINIMIZING ENVIRONMENTAL IMPACT

Hilti manages environmental issues with the same rigor and enthusiasm as other aspects of the company. We strive to minimize any possible damaging effects to the environment which may result as a consequence of our actions or the actions of our suppliers. Hilti and its suppliers thus continuously aim to reduce the negative environmental impact of manufacturing and supply operations.

DUTY-BOUND TO HUMANITY AND THE ENVIRONMENT

Hilti endorses the 10 principles of the United Nations Global Compact which calls on companies to recognize, support and put into practice within their sphere of influence a catalog of basic values pertaining to human rights, labor norms, environmental protection and combating corruption. The Hilti Code of Conduct for Suppliers spells out Hilti’s expectations of its partners

and suppliers with regard to social, safety and environmental requirements, as well as legal requirements and the company’s commitment to fighting corruption. Hilti embraces ecological responsibility and, among other environmental concerns, climate protection. In 2007, Hilti signed the Caring for Climate convention. Hilti adheres to the indicators provided by the Global Reporting Initiative (GRI) and reports Hilti relevant indicators in its Annual Report.

COMPLIANCE WITH REGULATIONS IS PREREQUISITE FOR RESPONSIBLE ACTION AND BEHAVIOUR

For Hilti products, stringent compliance with RoHS (restriction of the use of certain hazardous substances in electrical and electronic equipment), WEEE (Waste Electrical and Electronic Equipment) and REACH (Registration, Evaluation and Authorization of Chemicals) is prerequisite. We also strive to comply with any further legislative provision worldwide. In addition, Hilti was first accredited to ISO 9001 in 1985 and added ISO 14001 accreditation in 1997. These ISO standards provide the basis of our integrated management system which is independently certified by the Swiss Accreditation Service (SQS).

HEALTH AND SAFETY

FOR HIGHER PRODUCTIVITY
AND GREATER SAFETY.

SAFETY FIRSTBECAUSE SAFETY INSPIRES PRODUCTIVITY.

Our corporate purpose “We passionately create enthusiastic customers and build a better future!” is the foundation of our approach and confirms that we take health and safety very seriously. As a consequence, health protection and the prevention of accidents and injuries at work have been Hilti’s key guiding principles for many years.

Although many talk only about hand-arm vibration, we believe that health and safety needs to be examined as a whole and we therefore provide solutions that take all aspects of significance to health and safety as well as productivity on the jobsite into account, including vibration, dust and noise.

Hilti’s commitment to health and safety also encompasses membership of various institutions that deal directly or indirectly with this subject.

In-depth understanding of your needs

We place great value on our closeness to our customers. Members of the Hilti field sales force are in direct contact with more than 200,000 customers every day. With the in-depth understanding of applications gained at first hand on construction sites, our staff is in a position to provide tailor-made training and advice in all matters relating to health and safety in the applicable fields.

The promise made in our claim is reflected in our unrivalled range of safety-relevant solutions, product features and services. Hilti offers innovative safety solutions for all phases of your project. We also provide alternative means for many applications so, keeping your own special requirements in mind, you can always select the safest and most suitable method for the job on hand.

Active Vibration Reduction

Lower vibration, higher productivity.
A Hilti technology since 1998.

Active Torque Control

Greater safety thanks to automatic cut-out. A Hilti technology since 1999.

Dust Removal Systems

Dust under control. A Hilti technology since 1993.
